

The ACA scholarship has allowed me an opportunity to take a summer course on the Holocaust and the Law that I would not have been able to afford to take under normal circumstances because of the high cost associated with summer tuition. As a Genocide Studies scholar, I am thrilled to be able to expand my knowledge on the Holocaust, and to implement that knowledge in my research and work on mass starvation crimes in Yemen's civil war. The final paper for this course will examine Hitler's Hunger Plan through the lens of faminocide, providing historical context to starvation crimes that may be applied to prosecutions of perpetrators of faminocide in Yemen and Sudan. I am so grateful to be the recipient of this scholarship and pursue this unique opportunity to expand my scholarship and provide international prosecutors with a legal rationale and historical context for prosecuting starvation crimes.
